SUBJECT: Proposed Subcommittee Charter

Enclosed is the proposed charter for this Subcommittee. It is a second draft and was edited by all Subcommittee members and participants at our last meeting.

The proposed charter represents the Subcommittee's view of itself: its purpose, role, composition and the scope of its activities. I believe it is realistic. There remains to be included the guidance of the SECOM. We look forward to receiving that and the confidence that our view is neither too narrow nor too broad which it will bring.

I will soon complete a year as Chairman of the Subcommittee. I am finding myself unable to devote sufficient time to its work. The Subcommittee's work is of sufficient potential importance to the national security that the situation should not continue. I therefore request you seek a replacement for me as Chairman. I have enjoyed the exposure to the Subcommittee and associating with its members, as well as with you and the SECOM itself.
